

COLORADO SPRINGS GAZETTE, NOVEMBER 11, 1875.

SECOND ABOUT THE STATE.

PERSONALITIES.

There is a fine timber country around Fort Co. inc.

Antelope are reported as being very plenty down in the Plate mts.

The Am. Concentration Works propose to act a Free Conductor to their machinery.

Owing to deep snow on the range, the mail now carries from the Union to Animas Forts on snow roads.

The San says: C. W. Sanburn, of Denver, formerly of Greeley, is mentioned as candidate for War on the State Penitentiary.

Messrs. Brosius & Co., of St. Louis, have works in process of construction at the foot of Cement Creek, six miles from the fort.

Some excellent signs are now being set up in the hub or market, made from Colorado grown cane. It is done at the rate of 200 gallons to the acre.

All Central City water mains are laid, the work having been well done, and in much less time than was anticipated.

A Mrs. Adams, of Canon City, was bitten recently by a spider and suffered severely, it is conjectured. It was several days before she recovered from the injury.

The engine of Prof. Mallett's reduction works, at Greeley, is a forty horse power, the capacity of the works is to be thirty two tons per day.

The Western Telegraph Company, says the Reporter, under the supervision of S. F. Armstrong, have rebuilt their line from Co. to the Clear Creek Canon to Central City.

The mountaineers say that the seavers, the most weather wise of all beings, are making no preparations for winter. This is a sure sign of a mild winter.

The Animals Cannon Ball is completed to a distance of eight miles from Silverton, and the works, Messrs. Wrighton, Day, and Walck, intend to have it ready for business by the 15th of next month.

The U. S. Inf. Regt. - The London has suspended operations for the present. The deer shot at that locality proved a serious drawback to the immediate completion of the new mechanical appliances.

A cattle association is to be formed in Colorado, having for its object the better protection of stockmen and their interests, the introduction of finely graded stock, and the advancement of the cattle interests, etc., of that section.

The immense coal fields of the Animas, the Colorado, Silverton, and Durango, have already been located, and some of the coal is amenable to selection, it will soon bring railroads to that section. It has been proven by experiment that most of the coal will coke.

Mr. Bowler, of Greeley, says that Mr. Douglass, who is a native of French Mountain, while hunting in the mountains, found a few feet below his camp a large number of fossilized leafy ferns, and he inferred that the ferns were probably the remains of a tree.

A woman who recently attempted to cross the range from Mt. Snell to Silverton got into the snow. One of her feet had badly frozen, and was unable to take her off for three days, they were in the snow when the other foot had lost all feeling. Her feet were cut to the bone.

The Dennis Mining Company, in which the Union soldiers and Virginia mining companies are interested, has finally selected the site for its works at Rosita. The works will be erected about half a mile from Rosita, near the residence of Mr. Swift, who will be compelled to let it operate as soon as possible.

The Sentinel says: Messrs. Freeman and Pease have an immense amount of subdued enthusiasm at the gold region on the waters of Taylor River. They bring back first rate reports and report much confidence in the future of that district. Their opinions has much weight as they are both old and successful miners.

On the 27th there was filed in the office of the Secretary of State, a certificate of the Ark as River placer Minn. Company, with a capital stock of \$500,000. Their property is situated six miles below the town of Granite, on the Arkansas River, in Lake County. The trustees are E. K. La Grange, Charles Mater and David Valle.

In the La Plata Mts. we learn of a multitude of ore taken from the Nevado Lode, San Miguel, which gave over \$10 to the ton, in silver. This is owned by Mr. T. V. Evans, of Ames, and M. M. S. of Nevada, Iowa. It is a very strong vein, and carries fully six inches of solid, hard, nut gilena (which gave the above return), and is located on the Hove and Fork of the San Miguel.

From the San Joaquin we learn that Thos Evans, who is residing between the Rio Grande and Argentum, recent went over a cliff with his team on the Lake City and Burrow's, Arkansas Road. The team rolled down a distance of severa hundred feet receiving severe injuries and scratches, but breaking no bones. Mr. Evans himself made quite a rapid descent for fifty or sixty feet, but finally brought up safely.

Summit County, the past season, has enjoyed a degree of prosperity in excess of my year's record. Without exception, all miners have turned out well, and in the case of the Ironton and one or two others a most marked increase is reported. This is a stage of the tide of prosperity which has no last set to it, but will go on realizing increase of success and new impetus with each succeeding season.

Mr. Lincoln V. V. has made good in Colorado up to October 1st is as follows: Offices established, Burrow's Park, Hinsdale County, James, W. Stewart, P. M. Garrison, Lake County, Alonso Hartman, J. Y. Running Creek, Elbert County, H. Hagedorn, H. M. Discontinued. The Metlows, Jeni County Postmaster appointed Alma, Jeni County, Charles E. Edgar, Glen Grove, Doug as Corp. to C. Krueger, Magnolia, Boulder County, George S. Fletcher.

Mr. James of California reports that a big bonanza has been struck in the "Tin" Mine, owned by Wood & Stevens, near Owyhee City. They have tapped a vein in the ore at least 1,000 feet, which exceeds thousand of tons of ore and makes its working very easy. Two men are taking out from ten to fifteen tons per day. Extraction is again rampant in Owyhee Creek district, ours running very high are continuing, and the prospect is flattering that the Alton works will soon open again - Farley Sentinel.

Yesterday evening, says the Greeley Sun, of the 28th, about a quarter past to o'clock, a brilliant light flashed across the heavens going from the westward in a northerly direction. It lasted from three to five seconds, and ignited the town. The size of a large fire. Three minutes afterward there was a loud explosion, like the report of a very heavy gun, which caused the ground to tremble. Several who were out of doors said the noise appeared to come from directly overhead. The general impression prevails that it was the explosion of a meteor.

The Evans Journal reports that the meteor, as seen from that town, was four times as large as the moon. The Journal also says that it exploded in the direction of Cheyenne, and by the length of time it took for the report to the eastward to be heard, the distance was estimated to be only 180 miles.

The Ye Old Mountain Lode, a new discovery, situated at the head of San Miguel, is proving to be very rich. This mine has a 7/8 foot vein, and shows a large body of rich gray copper, running from two to five hundred ounces per ton. - Mr. S. V. Stor, owner by Messrs. Everett & Rossouw, has a new discovery, and shows a very large vein - over two feet wide - with rich minerals, consisting of a large vein. This mine is near the head of Mineral Creek, about eight miles from Silverton. - The Aspinwall has, doubtless, this summer, over twelve thousand tons of ore from it having been sent to Greeley & Co.'s smelter. Two veins are now set on this mine, and we expect to twenty when coming the winter. - San Juan

SCENE AND SCENE.

Carcina Antonelli died on Monday.

A niece of Mungo Park, the explorer, is living in Scotland, 73, still poor.

An old tutor of Napoleon, a priest named Leter, died recently at Vieux-Brisach.

John S. Rose, an Indiana State Senator, from Jefferson County, committed suicide on Tuesday.

Ex-Empress Eugenie is going to Rome so as to restore the memory that she had in France.

Senora Fuscia, aged 110 years, and her son, aged 80 years, reside in the San Francisco Centennial procession.
